KANSAS ASSOCIATION OF HOMES AND SERVICES FOR THE AGING CHOOSES SILVERCHAIR LEARNING SYSTEMS AS PREFERRED ONLINE TRAINING PROVIDER

Charlottesville, VA, February 23, 2010 – The Kansas Association of Homes and Services for the Aging (KAHSA) has chosen Silverchair Learning Systems as the preferred online training provider for KAHSA, bringing its members effective training solutions that will help improve operations and reduce costs.

KAHSA President/CEO Debra Zehr states, "Well-trained staff are the key to outstanding quality of care. We are pleased to partner with Silverchair to provide enhanced opportunities for relevant, timely staff training for our members."

This partnership gives KAHSA members access to a highly effective and affordable turn-key learning program that delivers, tracks and reports on educational programs for their entire organization. Silverchair's training program provides a complete curriculum of in-service and regulatory courses required by CMS (Centers for Medicare & Medicaid Services) and OSHA (Occupational Safety and Health Administration), as well as important resident care topics that specifically address the needs of senior care providers and their employees. The program can also be customized to include material specific to an organization.

"KAHSA does an excellent job of working and communicating with their members to provide the highest level of care for seniors," said Mike Mutka, President and COO of Silverchair Learning Systems. "We look forward to bringing their members the tools for training success."

KAHSA has negotiated favorable pricing with Silverchair, making the learning management and online training system available to its members at a substantial discount.
