**MISSOURI HEALTH CARE ASSOCIATION CHOOSES  
SILVERCHAIR LEARNING SYSTEMS AS PREFERRED ONLINE TRAINING PROVIDER**

**Charlottesville, VA, June 30, 2010** – The Missouri Health Care Association (MHCA) has chosen Silverchair Learning Systems as a preferred online training provider, bringing its members effective training solutions that will help improve operations and reduce costs.

“MHCA continues to bring its members the best value and training with this partnership. SLS brings a tremendous library of courses for our online offerings and a terrific discount for facilities who want to do even more for their facility in online training and quality improvement,” said Jon Dolan, Executive Director of MHCA.

This partnership gives MHCA members access to a highly effective and affordable turn-key learning program that delivers, tracks and reports on educational programs for their entire organization. Silverchair’s training program provides a complete curriculum of in-service and regulatory courses required by CMS (Centers for Medicare & Medicaid Services) and OSHA (Occupational Safety and Health Administration), as well as important resident care topics that specifically address the needs of senior care providers and their employees. The program can also be customized to include material specific to an organization.

“MHCA works diligently to provide the most useful resources for Missouri long term care providers, and we’re proud to help them further their goals,” said Mike Mutka, President and COO of Silverchair Learning Systems.

MHCA has negotiated favorable pricing with Silverchair, making the learning management and online training system available to its members at a substantial discount.
