MONTANA HEALTH NETWORK CHOOSES SILVERCHAIR LEARNING SYSTEMS AS PREFERRED ONLINE TRAINING PROVIDER

Charlottesville, VA, April 7, 2010 – The Montana Health Network (MHN) has chosen Silverchair Learning Systems as its preferred online training provider, bringing MHN members effective training solutions that will help improve operations and reduce costs.

“Silverchair will be a great companion to MHN’s existing training program,” said Chris Hopkins, MHN’s VP Strategy and Business Development. “MHN is now able to offer annual mandatory training courses in addition to our existing clinical education and training.”

This partnership gives MHN members access to a highly effective and affordable turn-key learning program that delivers, tracks and reports on educational programs for their entire organization. Silverchair’s training program provides a complete curriculum of in-service and regulatory courses required by CMS (Centers for Medicare & Medicaid Services) and OSHA (Occupational Safety and Health Administration), as well as important resident care topics that specifically address the needs of senior care providers and their employees. The program can also be customized to include material specific to their organization.

“A state as vast as Montana deals with the challenges of in-person training, especially in the 24/7 business of health care organizations,” said Mike Mutka, President and COO of Silverchair Learning Systems. “We’re excited to work with MHN to leverage online learning to provide the best learning opportunities for their members.”

MHN has negotiated exclusive pricing with Silverchair, making the learning management and online training system available to its members at a substantial discount.
