**NEVADA HEALTH CARE ASSOCIATION CHOOSES SILVERCHAIR LEARNING SYSTEMS
AS PREFERRED ONLINE TRAINING PROVIDER**

Charlottesville, VA, February 16, 2010 – The Nevada Health Care Association (NHCA) has chosen Silverchair Learning Systems as the preferred online training provider for NHCA, bringing its members effective training solutions that will help improve operations and reduce costs.

“NHCA is committed to enhancing educational opportunities for its members,” said Daniel Mathis, Past President of NHCA. “We have partnered with Silverchair Learning Systems because of their leadership in the areas of training effectiveness, compliance, and cost reduction. We also recognize their forward thinking in providing easy access to both mandatory and elective education.”

This partnership gives NHCA members access to a highly effective and affordable turn-key learning program that delivers, tracks and reports on educational programs for their entire organization. Silverchair’s training program provides a complete curriculum of in-service and regulatory courses required by CMS (Centers for Medicare & Medicaid Services) and OSHA (Occupational Safety and Health Administration), as well as important resident care topics that specifically address the needs of senior care providers and their employees. The program can also be customized to include material specific to an organization.

“We are always honored when a state association chooses Silverchair as their online training provider, and we’re excited to work with NHCA,” said Mike Mutka, President and COO of Silverchair Learning Systems. “NHCA continually offers the best professional development opportunities for its members, and we look forward to helping its members improve their training programs.”

NHCA has negotiated exclusive pricing with Silverchair, making the learning management and online training system available to its members at a substantial discount.
