SENIOR LIVING COMMUNITIES PARTNERS WITH SILVERCHAIR LEARNING SYSTEMS

Charlottesville, VA, DECEMBER 10, 2008 – Senior Living Communities, a leading owner and operator of premier retirement communities throughout the southeastern United States, has partnered with Silverchair Learning Systems to implement a comprehensive eLearning program for its facilities.

“Silverchair looks forward to helping Senior Living Communities enhance their training compliance and management,” says Laura Girasole, Director of Business Development for Silverchair Learning Systems. “We are thrilled to be working with such a forward-thinking organization.”

Silverchair’s Learning Management System (LMS) delivers, tracks, and reports on educational programs for a user’s entire organization. It provides a complete curriculum of in-service and regulatory courses required by CMS (Centers for Medicare & Medicaid Services) and OSHA (Occupational Safety and Health Administration), as well as important resident care topics that specifically address the needs of senior care providers and their employees. Program users can also customize the system to include material specific to their facilities.

“The partnership between Senior Living Communities and Silverchair Learning Systems will launch our organization into the next generation of healthcare administration,” said Denise Nezbeth, Vice President of Healthcare Culture for Senior Living Communities. “We are now positioned to further our commitment to a productive and customer-oriented environment and advance the expertise and proficiency of our frontline employees in a timely, cost-effective, and well-organized manner. Raising the bar for our employees will inherently strengthen management oversight and accountability, and ultimately improve the delivery of first-class services to all of our residents.”
